Child-Centered Play Therapy
An Evidence-Based Intervention

What is Child-Centered Play Therapy?

- A developmentally responsive play-based mental health intervention for social, emotional, behavioral, & relational disorders
- Appropriate for young children ages 3-10
- Nationally recognized evidence-based intervention
- A way to make a difference in a child's life!

Treatment Manual and Resources

*CCPT Treatment Manual can be found in the appendix. Available in English, Chinese, Japanese, Korean, Turkish.

Evidence-Base for CCPT

- Rated Promising by The Title IV-E Prevention Services Clearinghouse for child well-being including behavioral, emotional, and social functioning and educational achievement and attainment.
- Rated Promising by the California Evidence-Based Clearinghouse for disruptive behavior treatment, anxiety treatment and domestic violence services.

Get CCPT Certified!

CCPT Certification is for you if you:
- want to develop expertise in an evidence-based intervention
- believe therapeutic relationships provide conditions for healing
- want to create lasting, positive change
- and trust children can move towards integration and self-enhancing ways of being!
